

Invitation to Speakers

Call for Presentation Proposals

SLURRY WALLS FOR CUTOFFS

July 22, 2010 (Tentative)
(Back-up Date: June 24, 2010)
Sacramento, CA, USA

Event Description

The Slurry Wall Committee of the Deep Foundations Institute (DFI) is organizing a seminar on the use of Slurry Walls for Cutoffs. This one-day seminar will comprise sessions on the design, construction, quality assurance and use of slurry walls to control water flow. Emphasis will be placed on regional projects and geotechnical challenges. Equipment, material and instrumentation suppliers and vendors will be presenting their services as well in the exhibit hall. Complete details of the event as plans progress can be found at www.dfi.org.

Presentation Proposal Submission

Presentation proposals are solicited on the following topics relating to Slurry Walls for Cutoffs:

- Case Studies
- History/Theoretical Background
- Quality Control and Inspection
- Seismic Considerations
- Strategic Planning for Rehabilitation Projects
- Levee Applications
- Innovative Applications and Techniques
- Practice-Oriented Research
- Equipment Advances

Parties interested in being included in the Slurry Walls for Cutoffs program should submit to DFI a brief summary (no more than 1 page) describing the subject matter of their proposed presentation. **The due date for submissions is Monday, March 22, 2010.** Please send proposals to DFI headquarters via email to bhusbands@dfi.org.

Notification of acceptance and guidelines for presentation development will be returned to all submitters no later than Tuesday, April 6, 2010.

All authors of accepted proposals will be required to commit to presenting their topic at the seminar on Friday, April 16, 2010 and will be required to submit a paper or PowerPoint presentation handout to be included in the seminar publication by Friday, June 4, 2010.
