**Deep Foundations and Soil Improvement
in Soft Soils**

November 11 – 12, 2015

Invitation

The Mexican Society for Geotechnical Engineering, the Deep Foundations Institute, the Geo-Institute of ASCE, and the Technical Committee TC-214 of the International Society for Soil Mechanics and Geotechnical Engineering, are pleased to invite you to the 3rd International Conference on Deep Foundations. This Conference will create a space to promote technical developments and to share international experiences about design and construction of deep foundations, with particular emphasis on soft soils.

Geotechnical engineers, practitioners and consulting engineers, public and private contractors, academics, students and all those involved with engineering works related to deep foundations, are very welcome to attend and present their recent experiences and developments.

Venue: Colegio de Ingenieros Civiles de México, A.C.

Camino a Santa Teresa No. 187, Col. Parques del Pedregal, Delegación Tlalpan,
C.P. 14010, D. F. , Mexico Phone +52 (55) 5606 2323

Topics

The event will have four technical sessions focused on the problems in soft soils, with the contribution of the most distinguished experts between academics and geopractitioners in the different fields.

SESSION 1: Deep foundations

SESSION 2: Soil improvement

SESSION 3: Slurry walls

SESSION 4: Case histories

Official language

The official languages of the Conference are English and Spanish
