Join DFI to know what’s going on in the industry, so you can provide contractors and engineers with products and equipment that solve their problems and make them more productive.

- Build relationships with professionals in the deep foundations industry.
- Participate in technical committees and learn about trends that effect the development of products and services.
- Participate in the development of national standards, specifications and design guides.
- Join the DFI Manufacturers, Suppliers and Service Providers Committee, established to provide opportunities to increase networking and technical activities.
- Showcase your products and services at DFI conferences and seminars worldwide.
- Position yourself and your firm as experts by presenting papers at seminars and conferences or publishing articles in DFI publications.

ARE YOU A MANUFACTURER, SUPPLIER OR SERVICE PROVIDER

DFI — FINDING COMMON GROUND®

DFI is an international association of contractors, engineers, manufacturers, suppliers, academics and owners in the deep foundations industry. Our multidisciplinary membership creates a consensus voice and a common vision for continual improvement in the planning, design and construction of deep foundations and excavations. We bring together members through networking, education, communication and collaboration. With our members, we promote the advancement of the deep foundations industry through technical committees, educational programs and conferences, publication of guides and specifications, a peer-reviewed journal, a flagship magazine, research, government relations and outreach.

DFI has more than 3,000 involved, knowledgeable and committed members worldwide. Our diverse membership encompasses all disciplines of our industry and performs the various specialties that comprise deep foundations. The membership includes people and companies from across the globe.

WHAT MEMBERS ARE SAYING ABOUT DFI

“All major contractors and engineering firms are typically involved in DFI, and therefore our attendance in meetings and our ability to exhibit at technical seminars is a great marketing opportunity. The people who attend the DFI events are often in management positions or other decision making positions, and through personal contacts our relationships grow with these individuals.”

Thomas Bird, Vice President of Sales
Williams Form Engineering

“As a manufacturer, DFI membership provides a means to make contacts with professionals in the geoindustry and a forum for peers to participate in technical committee activities.”

Gary Seider, P.E., Hubbell Power Systems, Inc. | Chance and Chair of DFI’s Helical Piles & Tiebacks Committee

“You never want to become complacent. You want to find out what’s going on in the industry, what issues people are having and how can you solve them — how can you provide a product that is going to solve their issues and make them more productive.”

Michael Baxter, Director of Sales
BAUER-Pileco
