

Drilled Shaft Seminar

Sponsored by ADSC's Mid-Atlantic Chapter

April 17, 2019 - Turf Valley Resort - Ellicott City, MD

Drilled Shafts (Caissons) and micropiles are quickly becoming the preferred deep foundation systems for retaining walls, bridges, power plants, transmission lines, and other infrastructure projects. This applies to both new and retrofit construction. This seminar will provide you with a competitive advantage in securing projects requiring deep foundations. Presentations will be informative for engineers, contractors, inspectors, and anyone interested in the advancement of deep foundations in the Mid-Atlantic Region.

Speakers:

- Richard Kalson *Benesch, Friedlander, Coplan & Aronoff LLP*
- Bernie Hertlein *GEI Consultants*
- Scott Jacobs *Case Foundation*
- Allen Cadden *Schnabel Engineering*
- Jesus Gomez *GEI Consultants*
- Rick deSchamps *Nicholson*
- Jeff Goodwin *Foundation Test Group*
- Casey Grzybowski *McCrossin*
