

THE FOUNDATIONS AND GEOTECHNICAL ENGINEERING SUMMIT, IN PARTNERSHIP WITH DEEP FOUNDATIONS INSTITUTE

The Foundations and Geotechnical Engineering Summit, in partnership with Deep Foundations Institute will be part of The Big 5 Heavy 26-28 March 2018, the Middle East region's largest heavy construction event. The summit will take place on the 27 March 2018, from 10:30 - 18:00 and will cover the important topics in the Foundations & Geotechnical industry, including:

- Instrumentation of monitoring systems featuring successful case studies
- Data management for ground engineering applications
- Ground engineering characterisation & associated risks
- Standardisation and legislation
- Dewatering & enabling works
- Deep foundation, design and construction challenges
- Ground improvement featuring successful case studies.

KEY BENEFITS FOR SPEAKERS INCLUDE:

- Raise your profile and credibility by sharing your expertise at the largest heavy construction show in the Middle East

- Present your technical expertise and gain exposure through PR, media and marketing support

- Priority seating at the conference, access to VIP facilities and recognition through a personalised speaker certificate

To apply to become a speaker, contact RubinaDsouza@dmgeventsme.com
