

# 11th International Workshop on Micropiles

## October 2012, Italy

### Invitation to Speakers – Call for Papers

Papers are solicited on the following micropile topics:

- State of practice
- Innovations
- Technical challenges, e.g., cyclic degradation, seismic design, connection design
- Historic renovation
- Load testing
- Numerical analysis on micropiles or micropile walls
- Education and market growth areas/potential
- IBO bond values and challenging soils
- Equipment evolutions – what is better now than then
- Slope stabilization and shoring with micropiles
- Micropile networks and reticulation
- Lessons learned (the good and the bad...no names please)

**Please Submit Abstracts to [info@ismicropiles.org](mailto:info@ismicropiles.org)**

(Submission of an abstract indicates your intent to submit a full paper for consideration by the Program Committee.)

#### KEY DATES:

- Abstracts due February 28, 2012
- Acceptance of Abstracts March 15, 2012
- Draft papers due June 1, 2012
- Reviewer comments returned to authors by July 1, 2012
- Final, revised papers due August 31, 2012
