

IT\$ Money

Increased Testing
Saves Money

11:00 a.m. - 12:30 p.m. EST | October 2, 2019 | December 4, 2019 | February 5, 2020

Register for DFI's Newest Webinar Series – IT\$ Money FREE to Members!

Non-members: \$149 for all 3 webinars plus an individual DFI membership valid thru December 2020.

The webinars will demonstrate how foundation testing conducted during the design phase can provide data that optimizes foundation designs and construction procedures, thereby saving money while increasing the quality of the constructed foundation.

The webinars are taking place on the following Wednesdays, from 11:00 a.m.– 12:30 p.m. EST:

- Wednesday, October 2, 2019
- Wednesday, December 4, 2019
- Wednesday, February 5, 2020

Presentations for December 4 include:

- **Dynamic and Rapid Pile Loading Test Program at Terminal 5, Port of Seattle**
Brice Exley | *Hart Crowser*
- **Performance of Various Pile Types in Sections of Brooklyn, New York – based on Load Test Results**
Tasos Papathanasio, P.E. | *Langan Engineering and Environmental Services*
- **California High Speed Rail Drilled Shaft Load Testing**
Kevin Burlingham | *Wood Environment and Infrastructure Solutions*

Presentations for February 5 include:

- **Cost Benefits of Bi-directional Load Testing**
Van Komurka, P.E., D.GE, F.ASCE | *GRL Engineers*
- **Foundation Engineering Revisited to Reduce Bridge Construction Risk**
Paul Axtell, P.E., D.GE | *Dan Brown and Associates*
